

GlobalCapture bEST simplifies document centric tasks by creating highly efficient workflows that start at the touch panel of your bEST enabled Konica Minolta Multifunctional Device

- Secure document capture locally or to the cloud
- Rapid location of filed documents through stored searches
- Direct document printing from the results of a search
- Advanced data extraction for automated records filing or information sharing

Streamline the flow of business information in your office by leveraging the power of GlobalCapture directly from the touch panel with your bEST enabled Konica Minolta device. The user-friendly interface of GlobalCapture bEST with QuickSearch provides users with the tools to automate image capture, optimize batch scanning, enhance image quality, route documents, extract high value data, use OCR to convert images to text searchable PDFs and release your documents directly to SmartSearch – either onsite or in the cloud.

Data Extraction & Routing

Extract

data with OCR or Bar Code Recognition for automating filing or to share with other line-of-business applications

Convert

images automatically to text searchable PDF's on the fly as they're captured from your bEST enabled Konica Minolta MFP

Release

documents to SmartSearch, either onsite or in the cloud

Route

documents to other SmartSearch users for review, approval or notifications

Document Capture & Processing

Capture

documents from your multifunctional printer, scanner, email or even a watched network directory

Optimize

batch scanning jobs with document separation through OCR, Bar Code, Page Count or Blank Page separation

Enhance

image quality as documents are being captured including color drop out, auto cropping and noise removal

GlobalCapture bEST with QuickSearch is a simple yet powerful solution for streamlining capture workflow activities and making them accessible from the touch panel of your bEST enabled Konica Minolta multifunctional printer. With GlobalCapture bEST anyone with access to the MFP can initiate a workflow that captures images, extracts high value data and notifies users of a pending workflow activity. **The result is an office environment that's less complicated, more efficient and more profitable.**

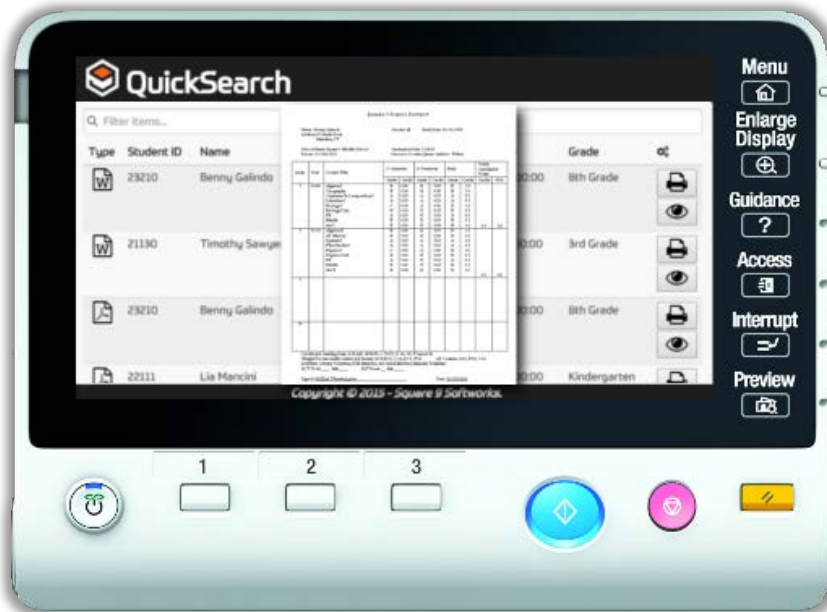

Complicated

Efficiency

Profits

Not only can you capture images at your bEST enabled Konica Minolta device, but through QuickSearch a user has the ability to search against the SmartSearch database, preview and print documents right from the touch panel

Easy Set-Up

Create your capture workflow through our easy drag & drop design tool

- Select your import method
- Choose your document actions
- Define your release point
- Save your workflow

QuickSearch bEST

Need a document in your SmartSearch database? There's no need to return to your desk

Quickly search, preview and print your document right from your Konica Minolta bEST enabled device

All-In-One

Providing multiple touch points for the capture and access of business critical information right from the touch panel of your Konica Minolta bEST enabled device

With GlobalCapture bEST, advanced features such as **image enhancement**, **document separation**, **barcode recognition**, **approval routing** and **email notifications** are at your fingertips. Through its dynamic integration with SmartSearch, GlobalCapture bEST provides a **real-time capture solution that improves collaboration while sharing document information** with other business applications.
